Career Objective

As a recent Information Technology graduate seeking an entry-level Mobile Application Developer or Frontend Developer position where I can apply my experience in React Native and problem-solving skills to build efficient and user-friendly applications.

Education

Technological Institute of the Philippines

Bachelor of Science Information Technology

Aug, 2021 - Aug 2025

Experience

Front-end Developer Intern

Consolidated Matrix Inc.(CMI) - 500 Hours OJT

2025

- Developed and improved mobile UI components using React Native
- Assisted in debugging and fixing frontend issues
- Participated in code reviews and UI testing
- Used GitHub and Azure DevOps for version control and collaboration
- Ensured responsive design across Android devices

Project Completed

Capstone Project:

Kinematics-Based Physics 3D Mobile Application for Learning Philippine Cultural Games Using Time-Stepping and Runge-Kutta Algorithms:

- Developed a 3D mobile learning application featuring traditional Filipino games (Patintero, Tumbang Preso, Batuhang Bola).
- Integrated Newton's Laws of Motion for realistic movement and physics simulation.
- Used numerical methods such as Adaptive Time-Stepping and Runge-Kutta Algorithm to improve motion accuracy and reduce simulation errors.

Freelance Project Carebridge:

Responsive Healthcare Website with AI-Powered Chat Assistant

- Developed a responsive healthcare website to provide users with accessible healthcare information and services.
- Designed and implemented a modern, user-friendly interface optimized for desktop and mobile devices.
- Integrated an AI-powered chat assistant to improve user engagement and provide instant support.
- Built the website using HTML, CSS, and JavaScript while ensuring cross-browser compatibility and responsive performance.

Skills

- Programming: TypeScript, C#, C++, R
- Frameworks: React Native, React.js, Flutter, Unity
- Database Management: MySQL, Oracle
- Web Development: HTML, CSS, JavaScript, PHP, XML
- Personal Skills: Video Editing, UI/UX Design using Figma, Basic Troubleshooting, Team Collaboration
